TREE ON THE HILL CROSS STITCH PATTERN

TREE ON THE HILL CROSS STITCH PATTERN

TREE ON THE HILL CROSS STITCH PATTERN

Use two strands of thread for cross stitch.

Use one strand of thread for the green back stitching and two strands for the white.

DMC COLOUR KEY

N	Symbol	Number	Name	Stitches
1		4045	Evergreen Forest (Variegated)	1329

N	Line Style	Number	Name
1		B5200	Snow White
2		319	Pistachio Green - Very Dark

An alternative green if you don't have/like variegated thread is 367 which is the mid-tone of the variegated thread I have used in this pattern.

Also, I chose to cross stitch a random batch of stitches at a time using the Danish method (stitching all the / half stitches first then going back to finish all the crosses), which mixed up the variegation more and made it a bit more subtle/nature-like.
